JW JELD-WEN WINDOWS & DOORS

WWW.SCHAAFWINDOW.COM

@schaafwindow

Schaaf Window Company is the largest independent window company in Illinois. A family owned business, Schaaf Window began in 1959 with a focus on customer satisfaction. Today we maintain an unwavering commitment to superior service, offering a wide range of products and services to builders, contractors and homeowners throughout the Chicagoland area.

Schaaf Window is a one-stop distributor for high-quality windows and related products, including exterior and interior doors, skylights, custom millwork and trim, mirrors, and shower doors. We back up our products with years of technical experience and a courteous customer service staff. Let Schaaf Window show you what over 60 years in the industry can do for your project.

BEST-IN-CLASS ENTRY COMPONENTS

The Schaaf door system uses the best-in-class components (doors, doorglass, frames, and thresholds) to provide our customers and yours the best the industry has to offer. These components provide a superior look and enduring performance for today's home building demands that vary from market to market. Day in and day out, you can depend on Schaaf Window to provide you with the better solution.

DOORS AND SIDELIGHTS

- Available in various wood species...mahogany, fir, clear pine, and knotty alder (inquire about custom species that are available)
- Available in 6-8, 7-0, and 8-0 heights; 1-3/4" to 2-1/4" thick; various widths (inquire about special heights and width options)
- Available in steel and fiberglass (smooth, woodgrain)
  - Fiberglass features 6 sides no wood exposure
  - Fiberglass available in flush glazed options
  - Fire rated steel and fiberglass doors available
  - Standard and custom SDL options available

FRAME

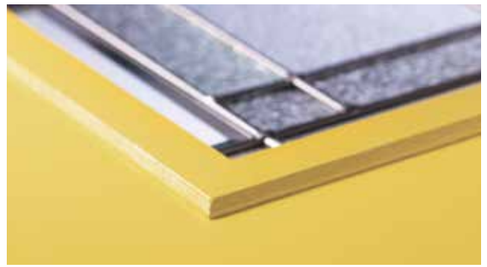
- Available in various wood species...mahogany, fir, primed, and clear pine, (inquire about custom species that are available)
- Available in 6-8, 7-0, 8-0 heights (inquire about special heights and width options)
- Fire rated jambs available in steel

TRIM

- Available in various wood species...mahogany, fir, primed, clear pine, and knotty alder (inquire about custom species that are available)
- Available in various profiles...BM180, 1-piece 1x4 and back band, 1x4, 1x6, 1x8, 5/4x4, 5/4x6, 5/4x8 (inquire about custom profiles available)

DOOR SILL

- High performing high-dam sill system with composite substrate
- Available in various colors...mill, bronze
- Available in various widths and swings; 4-9/16", 6-9/16", or 9"; inswing or outswing
- ADA sills available



ZEEL™ DOORGLASS FRAME (*optional*)

- A sleek, versatile frame that blends seamlessly into the entry door, allowing the doorglass to take center stage.
- Fibermate Plus™, our strongest material yet, exceeds performance expectations in extreme environments.
- Resolve® sealant is immune to squeeze out and doesn't degrade over time.
- ZEEL's innovative clip system eliminates the need for screws and screw hole covers

Design-Pro™ Door Collection

The Design-Pro Collection is carefully crafted to resemble natural wood graining. High definition panels with wider profiles provide more depth and authenticity than traditional fiberglass doors. Registration lines between the stiles and rails complete the look of a real wood door. All Design-Pro Series doors are constructed with aesthetics, energy efficiency and low maintenance in mind.

Oak | Mahogany | Fir

Smooth-Pro™ Door Collection

JELD-WEN offers a wide array of Smooth-Pro designs built with the same high definition panels and wider profiles found in our Design-Pro Series. Because each Smooth-Pro door contains a light paint-brush-stroke texture, doors arrive ready for paint without the need for sanding or scuffing the surface. Many Smooth-Pro designs are available Direct Glazed, offering wider viewing areas.

Smooth

A durable and affordable option, **steel doors** are a great entry door option. They are built with wood stiles and rails with mitered top corners to prevent water absorption. Galvanized steel facings are factory primed with neutral, low-sheen, baked-on enamel primer for easy finishing.

Contours™ Premium Steel

The Contours line of doors elevates the style of traditional steel doors. With an exclusive high-definition beaded sticking panel profile, Contours premium steel doors are elegant. Optional steel edge construction is available for added durability and fire ratings up to 90 minutes.

Contours

Fire door options available

Gladiator® Construction Grade Steel

The Gladiator series delivers a strong door in classic designs. Great for a front or side entry door, Gladiator doors are built to last and look great. They arrive primed and ready to paint.

ARCHITECTURAL COLLECTION

A premium line of fiberglass doors and matching fiberglass components featuring an authentic woodgrain replication made possible by unique NVD (nickel vapor deposition) technology. Each door begins with hand selecting the most beautiful pieces of wood to build a real wood door. A silicone casting then picks up the woodgrain, and with NVD technology, the finest details are transferred into a door mold. The result is a fiberglass door that replicates natural woodgrain characteristics and is virtually indistinguishable from real wood. Limited Lifetime Warranty.

ENTRY SYSTEMS FROM SCHAAF WINDOW COMPANY

Beyond making a statement and offering a welcome, your entry system must perform.

Entry system—your door panel paired with surrounding components designed to work together to keep out air and water.

Endura components—sills, weather sealing, astragals, frames and multipoint hardware—deliver the best possible protection from the weather. For you, entry system performance means protection from costly water damage, energy savings and security. But unless you choose Endura components, performance is not standard.

Endura®
PERFORMANCE STANDARD

Z-Series Sills

All-composite substrate. Z-Series Sills give you the best combination of performance and value. The all-composite substrate won't rack, warp or rot. Ever.

Narrow synthetic high dam cap. The cap resists fading and wear, and won't warp or rot. A built-in seal keeps out air and water, even in the most severe conditions. Narrow cap width ensures the drip edge on the door bottom deflects water away from the cap.

Ultimate Astragal

Ultimate performance for your french door entry system. The patented three-point sealing system eliminates water and air infiltration common with other systems.

Floating Boot. The boot lifts up with the flush bolt to clear the threshold when the door is opened and is secured in place when the door is closed, eliminating wear to maintain a lasting seal that won't fail after continuous use.

FrameSaver® Door Frames

Lifetime Warranty.
FrameSaver Door Frames from Endura are simply the best door frames on the market. Rot-proof, they are so dependable they come with a fully transferable lifetime warranty.

Patented composite bottom won't absorb water, won't rot, won't mold, resists insects—even finishes and paints like wood. **Our brand** is stamped right into the product, so you know you are backed by the original FrameSaver.
